SUMMARY

Software engineer with 1+ years of experience in software development and with a strong foundation in computer science. Contributed to enterprise-level systems and backend services focused on reliability, security, and efficiency. Seeking to contribute to teams while growing my skills and gain practical experience.

TECHNICAL SKILLS

- **Languages** : Java, Kotlin, SQL
- **Frameworks and Libraries** : Spring Boot, Spring MVC, Spring WebFlux, Spring Security, Servlets, Hibernate, JPA, Resilience4j, Kafka
- **Tools & Platforms** : Maven, Gradle, Swagger UI, GitHub Version Control, Git, Docker, IntelliJ IDEA, Postman
- **Databases** : MySQL, PostgreSQL, Firebase, MongoDB, H2, Redis
- **Concepts & Utilities** : Microservices, Multithreading, Dependency Injection, Async Operations, Caching, Unit Testing Scheduling, REST API Design, WebSocket, Logging, Collection Framework, Clean Architecture, Design Patterns, Object Oriented Programming, Data Structures and Algorithms

WORK EXPERIENCE

TATA CONSULTANCY SERVICES – Mumbai, India

📅 May 2025 – Present

Java Developer: State Bank of India, CKYC (Central Know Your Customer) Project

- Optimized customer account lookups, **reducing repeated server calls by 40%** and improving average response time by **30%** during branch customer verification workflows.
- Implemented SQL query optimization and indexing strategies that **reduced data retrieval time by over 25%**, improving the performance of high-volume extraction jobs.
- Contributed to **redundant code optimization and modularization**, reducing maintenance overhead and improving code reusability.

FREELANCE DEVELOPER – Remote

📅 Apr 2024 – June 2024

Java and Android Developer

- Architected and developed a **seat booking application**, incorporating **secure payments** and **QR check-ins**, facilitating **100+ successful reservations within the first month** of deployment across libraries and gyms.
- **Designed user flows** and system architecture for a smooth user experience —**boosted task efficiency by 25%**.
- Reduced check-in time by **50%** through efficient **QR scanning implementation**.
- Applied **Clean Architecture, Design Patterns and Security Measures** to create a scalable, testable, and maintainable codebase, and **well-structured APIs** that simplified frontend integration and reduced development effort.

TALEN TITAN PRIVATE LIMITED – Remote

📅 Oct 2023 – Mar 2024

Android Developer Intern

- Developed and enhanced Android app features by integrating external data sources and **RESTful APIs**, optimizing data management with **in memory database**, leading to a **30% improvement in data processing efficiency**.
- Implemented **in-app ads** that contributed to a **15% increase in app-generated revenue**.
- Diagnosed and **resolved software bugs**, performance issues, and performed **debugging** to ensure **high-quality performance**, delivering **interactive** and **user-friendly interfaces**.

PROJECT

FITNESS APPLICATION – Personal Project

📅 Oct 2024 – Present

- Architected a full-stack **fitness application** featuring a **personalized chatbot**, core fitness functionalities and **ML powered games**, increasing user engagement and encouraging long-term retention.
- Engineered backend services with **Java Spring Boot**, integrating **Thymeleaf**, **Spring Security**, **JWT Token**, **Redis** for caching and **PostgreSQL and Firebase** as database and **WebSocket API** for real time chat.

EDUCATION

• **IMS ENGINEERING COLLEGE** – Ghaziabad, Uttar Pradesh

Bachelor of Technology (Computer Science and Engineering) CGPA: 8.09 (2020 - 2024)

• **CH. CHHABIL DASS PUBLIC SCHOOL** – Ghaziabad, Uttar Pradesh

Senior Secondary (XII) (CBSE Board) Percentage: 90.00% (2019 - 2020)

Secondary (X) (CBSE Board) Percentage: 82.00% (2017 - 2018)
