SUMMARY

Software engineer with 2 years of experience in software development and with a strong foundation in computer science. Contributed to enterprise-level systems and backend services focused on reliability, security, and efficiency. Seeking to contribute to teams while growing my skills and gain practical experience.

TECHNICAL SKILLS

- **Languages** : Java, Kotlin, SQL
- **Frameworks and Libraries** : Spring Boot, Spring MVC, Spring Framework, Spring Security, Servlets, Hibernate, JDBC, JPA, Resilience4j, Kafka
- **Tools & Platforms** : Maven, Gradle, Swagger UI, GitHub Version Control, Git, Postman, IntelliJ IDEA, Eclipse IDE, Docker, AWS
- **Databases** : MySQL, PostgreSQL, Firebase, MongoDB, H2, Redis, NoSQL
- **Concepts & Utilities** : Microservices, Multithreading, Dependency Injection, Async Operations, ORM, Tomcat, Caching, Unit Testing, Junit, Mockito Scheduling, REST API Design, JSON, WebSocket, Logging, Collections Framework, CI/CD, System Design, Clean Architecture, Design Patterns, Object Oriented Programming (OOP), Data Structures and Algorithms

WORK EXPERIENCE

TATA CONSULTANCY SERVICES – Mumbai, India

May 2025 – Present

Java Developer: State Bank of India, CKYC (Central Know Your Customer) Project

- Engineered enterprise-grade Java backend and **batch-processing** applications for SBI's Central KYC platform using **Java 25, Spring Boot, Java 8, and Spring MVC**, enhancing processing throughput by **45% through multithreading solutions** allowing data extraction processes to execute concurrently across multiple distributed servers.
- Executed advanced **SQL query optimization** and database indexing strategies inside the application deployment structure (**WAR/JAR**), **reducing high-volume data retrieval times by over 25%**.
- Optimized **redundant code**, achieving a **20% reduction in code complexity** and enhancing overall software maintainability for critical applications.

FREELANCE DEVELOPER – Remote

Apr 2024 – June 2024

Java and Android Developer

- Architected and collaborated a **seat booking application**, incorporating **secure payments** and **QR check-ins**, facilitating **100+ successful reservations within the first month** of deployment across libraries and gyms.
- **Designed user flows** and system architecture for a smooth user experience —**boosted task efficiency by 25%**.
- Applied **Clean Architecture, Design Patterns and Security Measures** to create a scalable, testable, and maintainable codebase, and **well-structured APIs** that simplified frontend integration and reduced development effort.

TALEN TITAN PRIVATE LIMITED – Remote

Oct 2023 – Mar 2024

Android Developer Intern

- Developed and enhanced Android app features by integrating external data sources and **RESTful APIs**, optimizing data management with **in memory database**, leading to a **30% improvement in data processing efficiency**.
- Implemented **in-app ads** that contributed to a **15% increase in app-generated revenue**.
- Diagnosed, debugged and resolved application defects and performance bottlenecks, **reducing reported issues by 30%** and improving application stability and user experience.

PROJECT

FITNESS APPLICATION – Personal Project

Jan 2026 – Present

- Created a fitness application with **ML-powered games and a chatbot**, leading to a **30% rise in daily active users** and improved session duration metrics.
- Engineered backend services with **Java Spring Boot**, integrating **Thymeleaf, Spring Security, JWT Token, Redis** for caching and **PostgreSQL and Firebase** as database and **WebSocket API** for real time chat.

EDUCATION

- **IMS ENGINEERING COLLEGE** – Ghaziabad, Uttar Pradesh
Bachelor of Technology (Computer Science and Engineering) CGPA: 8.09 (2020 - 2024)
- **CH. CHHABIL DASS PUBLIC SCHOOL** – Ghaziabad, Uttar Pradesh
Senior Secondary (XII) (CBSE Board) Percentage: 90.00% (2019 - 2020)
Secondary (X) (CBSE Board) Percentage: 82.00% (2017 - 2018)
